Equitable

Coalition for
Equitable
Water Flow

The Coalition is seeking the implementation of an *equitable* water management policy for the TSW that accords equal consideration, along with fair and just treatment to everyone in the entire Trent River watershed. Reservoir and flow through (RAFT) lake communities should be considered equally with all other TSW communities where the policy applies to safe navigation, access to waterfront property, economic sustainability and the avoidance of negative environmental and economic impacts.

Governance

- One governing body
- Jurisdiction is currently a nightmare
- Integrated water management plan

Funding

Coalition for
Equitable
Water Flow

- Immediate infusion of funds
- Unless jurisdictional issues change, must come from Federal & Provincial Governments

Navigation & Riparian Rights
