

The Panel on the Future
Of the Trent-Severn Waterway
185 King St. Ste 100
Peterborough, Ontario
K9J 2R8

Sept 15, 2007

Dear Panel;

Our Waterway is a priceless piece of Ontario geography that should be preserved and Improved not only for our enjoyment but also as a tourist attraction. It is impossible to know how many thousands of dollars are spent in the towns and communities along The waterway.

Sadly, we are lead to believe that due to ever increasing fees for lock passes and mooring and the recent removal of channel markers many regular users of the waterway will not be making long trips along the system as we used to do. We have travelled annually To Georgian Bay from Fenelon Falls for thirty years but will probably not to plan to go That route again. We will still enjoy Georgian Bay by tailoring our boat to our destination.

This is just one example of what you might expect to experience if decisions regarding safety and costs are not reviewed and changed accordingly.

Yourd very truly
Jack & Frieda Robinson
